

Lead children in sequence songs where each movement builds on the last and repeats.

## For example:

Oh, in the woods there was a tree The prettiest tree You ever did see And the tree was in the ground And the green grass grew all around, all around, and the green grass grew all around And on that tree There was a limb The prettiest limb That you ever did see And the limb was on the tree And the tree in the ground And the green grass grew all around, all around, and the green grass grew all around

Continue to add on while repeating the sequence and coming back to the green grass.

More Support: Notice interest level of children to determine how many verses to sing. Use visuals to go along with the song and point to the picture as you sing.
